Wrocław University of Science and Technology

Software System Development (Level 2) (Lecture)

Introduction

Marek Krótkiewicz

Marek.Krotkiewicz@pwr.edu.pl

Department of Applied Informatics
Faculty of Information and Communication Technology
Wrocław University of Science and Technology

March 3, 2025

Wrocław University of Science and Technology

Agenda

- Consultations
- Exam
- Subject objectives
- Attendance at the lecture
- Course assessment
  - Assessment
  - Grades
  - Programme content
- Primary and secondary literature

Wrocław University of Science and Technology

Consultations

Consultations: Summer 2026

- **Tuesday**:

  1:00 p.m. – **3:00** p.m. (13:00 – 15:00)
  Building: **D2**, Room: **302b**

- **Friday**:

  1:00 p.m. – **3:00** p.m. (13:00 – 15:00)
  Zoom platform

The consultations during my office hours are by appointment only. The e-mail with the date and hour of choice should be send at least 2 days in advance with the specific topic of the consultations.

e-mail: Marek.Krotkiewicz@pwr.edu.pl

Exam

Exam: Summer 2026

- I term:

  Date: TBA
  Time: TBA

- II term:

  Date: TBA
  Time: TBA

Rules:

- The exam will take place online.
- It will be possible to join the exam only within the first 5 minutes of its start time.
- To take the exam, you need access to the Internet, a computer and an installed web browser.
- No additional dates are planned.
- The exam result is expressed as a percentage and constitutes an element of the assessment for a group of courses, in accordance with the rules presented below.

Wrocław University of Science and Technology

Subject objectives

- To familiarize students with modern software development processes.
- To allow students to gain practical experience from application of a selected process (resulting with at least a minimal set of documents) to the development of a software system.
- To develop students' skills that will enable them to assess the quality of a software product at early stages of development.

Wrocław University of Science and Technology

Attendance at the lecture

- Attendance at the lecture is **obligatory**.
- **Three absences** throughout the semester, for any reason, automatically fail.
- Attendance at the lecture may be checked at any time of the lecture.

Wrocław University of Science and Technology

Course assessment

Assessment

- F_1 – **Exam**:

$$F_1 = \frac{\text{points scored on the test}}{\text{maximum number of points on the test}}$$

- F_2 – **Project**:

$$F_2 = \frac{\text{points scored on the project}}{\text{maximum number of points on the project}}$$

- F_3 – **Seminar**:

$$F_3 = \frac{\text{points scored on the seminar presentation}}{\text{maximum number of points on the seminar presentation}}$$

P – **Aggregated assessment**:

$$F_1 > 0.5 \wedge F_2 > 0.5 \wedge F_3 > 0.5 \implies P = 0.4 \cdot F_1 + 0.4 \cdot F_2 + 0.2 \cdot F_3$$

$$\neg \left(F_1 > 0.5 \wedge F_2 > 0.5 \wedge F_3 > 0.5 \right) \implies P = 0$$

Wroclaw University of Science and Technology

Course assessment

Grades

Aggregated assessment (P) conditions	Grade
$0\% < P \leqslant 50\%$	2.0
$50\% < P \leqslant 60\%$	3.0
$60\% < P \leqslant 70\%$	3.5
$70\% < P \leqslant 80\%$	4.0
$80\% < P \leqslant 90\%$	4.5
$90\% < P \leqslant 95\%$	5.0
$95\% < P \leqslant 100\%$	5.5

Wrocław University of Science and Technology

Course assessment

Programme content

1. Introduction
2. Project goals and objectives
3. Stakeholders
4. Information system domain
5. Scope and context of the project
6. Project risk management
7. Project time management
8. Project costs estimation
9. Overview of managerial activities
10. The Unified Process
11. Requirements Management
12. Business modelling

Wrocław University of Science and Technology

Primary and secondary literature

PRIMARY LITERATURE:

1. L. Maciaszek, B.L. Liong, Practical software engineering: a case study approach, Pearson Addison Wesley, 2005
2. P. Kroll, P. Kruchten, The Rational Unified Process Made Easy: A Practitioner's Guide to the RUP, Addison-Wesley Object Technology Series, 2003

SECONDARY LITERATURE:

1. Per Kroll, Agility and Discipline Made Easy: Practices from Open UP and RUP, Addison-Wesley Professional, 2006
2. OpenUP description (Eclipse project)
