Agenda

Communication between students and teacher

Assessment

Deliverables

Attendance

Organization of classes

Communication between students and teacher

- 1 Communication with the teacher should be provided mainly via **MS Teams** (ONLY in extraordinary situations, via e-mail).
- 2 Due to the limited size of mailboxes, no files, reports, and other artifacts should be sent via email. All emails with attachments sent by students will be automatically deleted without being read.

Assessment

- 3 Each student is assessed based on their presentation of the assigned topic.
- 4 The assessment takes the form of points converted into a percentage, which is a component of the SSD course grade.
- 5 Each presentation is substantive assessed on in the following aspects:
 - substantive content (C) (correctness, completeness, timeliness):
 $0 \leq C \leq 10$,
 - readability of the presented slides (R):
 $0 \leq R \leq 10$,
 - clarity of speech and answers to questions (S):
 $0 \leq S \leq 10$.

Total number of points:

$$P = C + R + S \quad (1)$$

$$0 \leq P \leq 30 \quad (2)$$

Assessment

- 6 Lack of presentation results in automatic assignment of 0 points and a grade of 2.0 in the *Software System Development* (SSD) course.
- 7 If the presentation was given, but you received less than 16 points in the presentation, you can improve it in the next class. In this situation, the revised grade can be at most 16 points. You can revise your presentation a maximum of once.
- 8 The assessment takes the form of points converted into a percentage, which is a component of the *Software System Development* (SSD) course grade.

Final seminar assessment:

$$F_3 = \frac{P}{30} \quad (3)$$

where:

P – points scored on the seminar presentation,
 F_3 – final seminar assignment.

Deliverables

- 9 The Author of the presentation is obliged to send the presentation to the teacher (using *MS Teams*) no later than 48 hours before designated deadline for a given topic. If the presentation is not submitted by this deadline, the maximum number of points that can be received is 16.
- 10 The presentation file should be in **PDF** format and the file name should match the following template:
SSD 2026 SEM - G«group» T«topicnumber».pdf
where:
 - «group» placeholder should be replaced with a *group* number from the set: {1, 2, 3, ...},
 - «topicnumber» placeholder should be replaced with a topic number, that is a number from the set: [1; 20].

Examples:

SSD 2026 SEM G1 T2.pdf

SSD 2026 SEM G2 T3.pdf

Attendance

- 9 Class attendance is obligatory.
- 10 Three absences throughout the semester, for any reason, automatically fail.
- 11 Class attendance may be checked at any time of the classes.

Organization of classes

- 12 Presentation topics are assigned to the students by the teacher during the first class. Appropriate information is available on the *MS Teams* platform.
- 13 The time to give a presentation is a maximum of **15** minutes.
- 14 Questions follow each presentation. Answers to questions affect of assessment.
- 15 It is not possible to present topics outside the scheduled class dates, in particular it is not possible to pass the course during consultations or after the classes.

Thank you for your attention
