3

Project goals and objectives

Project goals and objectives

Projects' goals and objectives describe what the project aims to accomplish or the business value the project should achieve.

3.1

Project goals and objectives

Criteria for the definition of goals and objectives

Project goals and objectives

Criteria for the definition of goals and objectives

Criteria:

- strategic constraints,
- measurable,
- achievable,
- complete,
- consistent,
- solution independent.

3.2

Project goals and objectives

Project goals

Project goals and objectives

Project goals

Project goals – Goals are high-level statements that provide the overall context for what the project is trying to accomplish.

Decomposition of general project objectives into specific ones.

- Quality
- Resources
 - Staff resources
 - Material/infrastructure resources
- Competing project indicators: quality, time and resources

3.3

Project goals and objectives

Objectives

Project goals and objectives

Objectives

Objectives are concrete statements describing what the project is trying to achieve. The objective should be written at a lower level, so that it can be evaluated at the conclusion of a project to see whether it was achieved or not.

A well-worded objective will be (SMART):

- **S**pecific,
- **M**easurable,
- **A**chievable,
- **R**ealistic and
- **T**ime-bound.

Thank you for your attention
