

Mobile Applications for IOS

Consultation hours: Tue. 15:00-17:00, Thu. 16:55-18:55 (Microsoft Teams / C3, 122)

Mail: oleksandr.yeroshkin@pwr.edu.pl

Attendance: Attendance will be checked at each lesson. Two absences are allowed. *Obtaining more than two absences will result in failing the course.*

Schedule:

Introductory classes (1)	Module 1 Functional Design and Mock-up (2-4)	Module 2 Development (5-12)	Module 3 Testing of the completed project (13-14)	Final classes (15)
Introduction and health and safety regulations/fire protection rules	Tools: (Adobe XD or Sketch or proto.io) and any text editor Artifacts: - Interface mockup (minimum 6 screens) - A document with the description of the application with a presentation of the designed screens. (PDF) Assessment method: The completed module will be assessed during the classes (about 15 minutes per person)	Tools: Xcode and any text editor Artifacts: A document containing the description of the project structure and the project itself. (PDF) Assessment method: The completed module will be assessed during the classes (about 15 minutes per person)	Tools: Xcode and any text editor Artifacts: A document containing a description of the tests performed and the result obtained Assessment method: The completed module will be assessed during the classes (about 15 minutes per person)	Issuing grades

Laboratory credit:

- Each module (Functional design and mock-up, Development, Testing of the completed project) must be positively assessed.
- Each product must be sent by Microsoft Teams in the form of
 - IOS_indexNumber_ProjectName_2025.zip
 - IOS_000000_ProjectName_2025.zip

*An archive sent with a name or extension not matching the example **will not be evaluated**.*

- The final grade for the laboratory will be calculated as the average of the grades obtained for each module.
- The complexity of the project is directly proportional to the number of people in the team (**1 person:** at least 3 screens, **2 people:** at least 5 screens, **3 people:** at least 6 screens, **4 people:** at least 7 screens).
- Project must run on a mobile device (iOS).
- The project must contain multimedia elements (such as pictures, audio, video, animations, etc.).
 - Project must contain at least 15 images/photos.
 - Project must contain/play at least 1 video.
 - Project must contain/play at least 1 audio file.
 - Project must contain animations of any project component.
- Assessment of individual modules will be carried out in the last class assigned to the relevant module. If the module is not delivered on time, it will be possible to pass it at the next class (the maximum grade, in such a case, will be 3.0).

*For example, The Functional Design and Mock-up module (2-4) ends on the **fourth** class.*
